

# FACIAL AESTHETICS

REFRESH • REJUVENATE • RE-ENERGISE

## Facial Aesthetics

### Reduce the Appearance of Lines and Wrinkles with Facial Aesthetics

Facial aesthetic treatments offer a non-surgical way of reducing the signs of ageing on the face. A natural, more youthful appearance can be achieved with a range of treatments carried out by fully trained, qualified and professional members of our team.

### Wrinkle Reduction

Wrinkle reduction treatments use a natural substance derived from a micro-organism which relaxes muscles and reduces the appearance of wrinkles from underneath the surface of the skin. Treatment is used to prevent and reduce lines and wrinkles which appear as frown lines between the eyes, forehead lines and crows feet. Although the results can be dramatic with treatment, it will not radically change your facial appearance. The muscles are simply relaxed, so you can still frown, smile, or look surprised without the wrinkles and creases between your brows.

## Dermal Fillers

Dermal fillers offer a safe and natural cosmetic treatment that restores volume and fullness to refresh and revitalise your looks. Ideal for deeper lines and wrinkles, dermal fillers work at a deep dermal level to delay the signs of ageing by 'filling out' and smoothing away wrinkles in troublesome areas that include nose to mouth grooves, forehead lines, frown furrows, lipstick lines and crows feet.
